But, this year’s winners are reinventing what it means to be a supply chain professional. This year’s winners are intuitive, adaptive and so super smart, and continue to push the envelope when it comes to everything supply chain-related,” says Marina Mayer, Editor-in-Chief of Supply & Demand Chain Executive and Food Logistics. “We received over 360 nominations this year, the highest number of nominations ever for this award. It’s proof that today’s supply chain professionals are not only doing great things for the supply chain, but are also being supported by their teams, peers and partners.”
