

PRESS RELEASE

TAYLOR COMPANIES DEMONSTRATES COMMITMENT TO ENVIRONMENTAL SUSTAINABILITY

Leading Logistics, Warehouse, and Distributing Entities Align to Fulfill Environmental Pledges

CINCINNATI, OH – NOVEMBER 27TH, 2023 – Taylor Companies, comprising Taylor Logistics Inc, Taylor Warehouse Corp, and Taylor Distributing Co, proudly announce significant strides in its commitment to environmental sustainability. The integrated efforts of these entities underscore their dedication to reducing environmental impact and fostering a more sustainable future.

Over the past several years, Taylor has prioritized integrating environmentally conscious practices across its operations, recognizing businesses' crucial role in addressing global sustainability challenges. The commitment spans multiple facets of the supply chain, from transportation and warehousing to distribution.

Taylor Logistics Inc., the logistics arm of Taylor, has implemented innovative transportation solutions to reduce carbon emissions across all three scopes. This includes optimizing routes, investing in fuel-efficient vehicles, and exploring alternative energy sources. By embracing cutting-edge technologies, Taylor Logistics Inc. aims to streamline operations while minimizing its ecological footprint, with a particular focus on Scope 3 emissions.

Taylor Warehouse Corp, which is responsible for storing and managing goods, has initiated comprehensive sustainability programs within its warehouse facilities. These initiatives encompass energy-efficient lighting, waste reduction strategies, and the implementation of recycling programs. Through these measures, Taylor Warehouse Corp is working to create environmentally responsible and resource-efficient warehousing solutions.

Taylor Distributing Co, the distribution arm of Taylor, is actively engaged in sustainable packaging practices to address all three scopes of emissions. The company is committed to minimizing packaging waste by adopting eco-friendly materials and optimizing packaging design. Taylor Distributing Co is also working with suppliers to measure and reduce the carbon footprint associated with the production and transportation of packaging materials, contributing to Scope 3 emissions reduction.

"At Taylor, we believe in the power of responsible business practices to drive positive change," said Noelle Taylor, Sustainability Captain and Marketing Director at Taylor. "Our commitment to environmental sustainability is a key aspect of our corporate responsibility. We are proud of our progress thus far and remain dedicated to continually advancing our sustainability initiatives."

In addition to these individual efforts, Taylor is exploring collaborative initiatives with industry partners, suppliers, and local businesses to enhance its environmental impact reduction strategies further. By fostering a culture of sustainability across its subsidiaries, Taylor Companies is demonstrating its commitment to creating a more sustainable and resilient future.
